SSC CGL 2024 Tier 1

This shift, analysed: 09 Sep 2024, Shift 3

Computed from this paper and its 4 sibling shifts | 29.08.2026

What this page adds to the paper

The paper that follows is the official record of the exam. This page is not part of it. It is what we counted after reading this shift against every other shift of the same exam: where its questions sat, how its section split compares with the rest, and which of its questions reappear elsewhere in the series with the numbers changed.

Section split in this shift

Section	Questions	This shift against the series
General Intelligence and Reasoning	49	+20.0 vs series average of 29.0
Quantitative Aptitude	26	+0.4 vs series average of 25.6
English Comprehension	23	-0.4 vs series average of 23.4

Topic mix, indicative

Counted by matching question wording, so treat it as indicative rather than an official syllabus tag. A question can match more than one bucket, and one that matches none is simply not counted here.

Topic pattern	Questions in this shift
Ratio, average and proportion	8
Mensuration and geometry	7
Grammar and vocabulary	7
Series completion	6
Analogy and classification	4
Time, speed, work	4
Sports, awards and days	4
Percentage, profit and interest	4
Coding and decoding	3
Polity and constitution	2

Questions this shift shares with other shifts

14 of the 91 questions in this shift use wording that also appears in another shift of the same exam, with the numbers changed. By question number: Q.7, Q.8, Q.13, Q.17, Q.21, Q.22, Q.24, Q.14, Q.10, Q.21, Q.22, Q.23, Q.24, Q.25.

That is the practical reason to solve an old shift: the template carries over even when the numbers do not.
